

Lampshade spec sheet

by Lampshades Inc. · Made in the USA since 1979

For hotels, restaurants, designers and FF&E buyers. Custom lampshades made to order in Bedford Park, Illinois.

What we make

Sizes	2½" to 80" in diameter. Any quantity, from one replacement to a full property.
Shapes	Round, square, rectangle and oval, as drums or tapered. Also bell, sphere, multi-tier, sculptural and custom shapes from your drawings.
Uses	Table and floor lamps, wall sconces, pendants and chandeliers.
Fitters	Standard 3/8" washer · UNO, threaded or unthreaded · Flat / Euro washer · Slotted (C) washer · Custom fitters made to your fixture.
Materials	Over 100 materials in 10 price categories: whites and parchments, linens, sheers, wipe-clean Trilam laminates, felt, slate and wood veneer, plus customer's own material (COM) and custom printing.
Edge finishes	Taped (matching or contrasting) · Trim band · Rolled edge.
Options	Closed and donut diffusers · Plain or printed linings · Multi-tier construction.
Made in	Our own factory in Bedford Park, Illinois, USA. Lampshades Inc. has made lampshades since 1979.

How we measure a shade

Tapered shades	Top × bottom × slant height , in inches. Slant height is measured along the side of the shade, not straight down.
Drum shades	Top and bottom are the same, so a drum is width × height .
Rectangles and ovals	Give the long and short side for the top and the bottom, e.g. top 10 × 6, bottom 16 × 10, slant 10.
Fitter	Look inside the shade at the part that sits on the lamp. A photo of it is the easiest way to tell us.

What we need for a quote

1. Shape, and top, bottom and slant (or width and height) in inches.
2. Fitter type, or a photo looking inside the current shade.
3. Material and edge finish. Free swatches help you choose.
4. Quantity, delivery address and the date you need them.
5. Anything special: flame-rating requirement, COM fabric, printing, diffusers.

Not sure of any of it? Send photos of the shades you have and we will work out the specification for you.

Ask us about

- **Lead time** for your quantity and material. We give it with every quote.
- **Flame-rated materials.** Tell us the standard your project has to meet and we will tell you which materials qualify.
- **Samples.** For larger orders we make a sample shade for approval before production.
- **Reorders.** Every specification is kept on file so later orders match.

Project specification table

Use one row per shade type. Print it, fill it in and send it with your quote request.

Item / location	Shape	Top	Bottom	Slant / height	Fitter	Material	Edge	Qty
<i>e.g. Guest room desk lamp</i>	<i>Rectangle tapered</i>	<i>10 × 6</i>	<i>16 × 10</i>	<i>10</i>	<i>Standard 3/8"</i>	<i>Cream Trilam</i>	<i>Taped</i>	<i>240</i>
